

...Since 2010

DIVINE
Brass Industries

Where quality inspires trust

Manufacturer of precision turned components, brass fittings, and CNC turned parts.

Welcome to the world of DIVINE BRASS INDUSTRIES. DBI was formed in 2010, with a vision to produce High Precision Turned Components for the global market. We at DBI in a short span have made envious inroads into the world markets. As a global player in the manufacture of micro precision Brass Fittings and CNC Turned Parts, we work very closely with some of the renowned Original Equipment Manufacturers and suppliers of Brass Fittings around the world using our expertise to improve performance and enhance profitability with innovative and value added products.

COMPANY ESTABLISHMENTS

2010

Name	DIVINE BRASS INDUSTRIES
Manufacturing Unit	Plot no 4568, Phase-3, GIDC, Near Dared, Jamnagar -361004.
Presenting Business Scope	Manufacturing of Precision Turned Components as per customers specification.
Key Person	Mr. Pravinbhai Sutariya (Managing Director) Mr. Akshit Sutariya (Sales & Quality Assurance)
Export Sales	80% of Annual Turnover
Vat/Tin No.	G. S. T. No. 24HYLPS0925L1ZV
Industries Served	Automotive Electrical & Electronics Marine Instruments Aerospace Gas & Oil Industries Pneumatic & Hydraulic Plastic Molding General Engineering
Memberships	EEPC-Engineering Export Promotion Council of India The Jamnagar Chamber of Commerce
Banker	HDFC Bank Ltd.
Website	www.divinebrassind.com
Working Principle	We do not employ child labors and discourage it. We have well established social welfare schemes for employees and their immediate dependents. We are serious and concerned about the safety and security of employees and as such we work under stringent safety measures. We impart periodical training to the employees so as to make them aware of the importance of environment. All our operations are environmental friendly and our unit has zero emission percentage and works under strict pollution control regime of Government.

COMPANY PROFILE

"Elevated precision manufacturing, Our Strengths Quality, Reliability, Competitiveness"

As part of our steadfast commitment to modernization and technological advancement, our management prioritizes the continual enhancement of our operations. We've made significant investments in state-of-the-art machinery and equipment, bolstering our ability to deliver unparalleled product satisfaction to our esteemed clients. Recognizing the ever-evolving landscape of technology, we've recently integrated cutting-edge CNC machines into our production process, giving us a distinct advantage over our competitors. This strategic approach ensures that we remain at the forefront of innovation, meeting and exceeding the specific industrial requirements of our clientele.

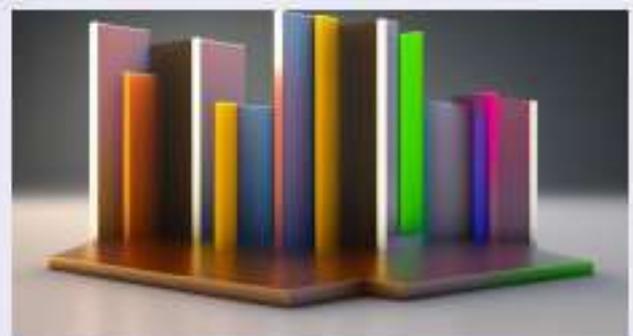

DBI prioritizes understanding the unique needs of every client, consistently striving to minimize costs while upholding uncompromising quality. Our adaptability to market demands is matched by our unwavering commitment to ensuring safe and healthy working conditions for all employees, firmly rejecting any form of forced, compulsory, or child labor. With a dedicated and diligent workforce and technical staff, DBI's trajectory of growth is a testament to their invaluable contributions.

OUR MISSION

Empowering industries with precision and innovation while prioritizing ethical practices and fostering a culture of safety and excellence.

OUR VISION

To be the foremost leader in the brass part industry, recognized globally for our unwavering commitment to quality, sustainability, and customer satisfaction.

OUR USP

At **DBI**, we offer more than just products; we provide comprehensive solutions tailored to meet our clients' exact needs. With three cutting-edge facilities dedicated to design, development, and manufacturing, DBI stands as the preferred single-source supplier for numerous OEMs both domestically and internationally. Our integrated approach allows us to seamlessly transition from concept to prototype, all within our well-equipped manufacturing unit. Furthermore, our adaptability ensures we can meet the most stringent requirements and deliver technologically advanced, customized solutions. Every component produced at DBI undergoes rigorous testing to guarantee durability, ensuring they excel even in the harshest conditions.

QUALITY SYSTEM

DBI operates as an in-house manufacturing unit, implementing a Total Quality Management System (TQMS) that oversees every aspect of our operations. From design validation to manufacturing processes, our TQMS spans all departments, ensuring comprehensive lot control and traceability throughout.

OUR QUALITY PLEDGE

At **Divine Brass Industries**, our commitment is to achieve total customer satisfaction by consistently delivering quality products on time at competitive prices. We prioritize continuous innovation and improvement in our manufacturing processes to meet evolving market demands and exceed customer expectations.

QUALITY PROCESS

Our process quality is ensured through varying procedures as enlisted below:

- ✓ Quality Plans
- ✓ Process FMEA
- ✓ Process Control
- ✓ PPAP (Production Part Approval Process)
- ✓ Use of Statistical Techniques
 - ✓ Capability study -Cpk 1.33
 - ✓ Gauge R&R study
- ✓ Continuous Improvement and continuous training of employees and vendors
- ✓ IMDS electronic submission
- ✓ RoHs Certificate
- ✓ Calibration of inspection equipment to National/International standards.
- ✓ Computer interface data loggers.

LAB

In addition we are having fully equipped testing laboratory consisting of sophisticated vision measuring machine (with touch probe), Roughness Tester, Torque tester and other standard testing instruments. Superior Measurement Accuracy and Repeatability for Tight Tolerance Application

PLATING

Since DBI does not have an in-house plating facility thus the plating process is given on Job Work. DBI provides all types of plating such as Nickle, Chrome, Tin, Zinc, Yellow Passivation, Silver & Gold. Once the plating is done, a testing is done to check the quality. Along with a testing certificate which is provided to our customer on their request.

PACKING

Materials are packed in Plastic Polythene bag. These bags would then be packed in the Corrugated Box after which these corrugated boxes are packed in Pallet. We also provide BAR CODE labeling as per customer's specification. This box does not contains the material more than 25Kgs. As far as possible recyclable material is used for packing. In case of any special packing required as per customer's choice, DBI® would charge for the extra cost...

KEY PRODUCT HIGHLIGHTS

30+

Standard products are available for immediate dispatch

120+

Customized products tailored to customer specifications

DBI has manufactured a large assortment of brass goods since its inception in 2010. Initially focused on components for the agriculture sector and gas applications, we've expanded to produce a comprehensive array of brass components, turned parts, and fittings, serving various industries across the globe.

PRODUCTS

1. Brass Turned Parts
2. Brass Sensor Parts
3. Brass Forging Parts
4. Brass Fitting Parts
5. Brass Sanitary Parts

BRASS TURNED PARTS

DBTP - 01

DBTP - 02

DBTP - 03

DBTP - 04

DBTP - 05

DBTP - 06

DBTP - 07

DBTP - 08

We produce and supply high precision turned components conforming to buyers technical specification and ensure stringent quality standard.

BRASS SENSOR PARTS

DBSP - 01

DBSP - 02

DBSP - 03

DBSP - 04

DBSP - 05

Sensor and Temperature switch parts which are being used in automobiles, Electrical Equipments & Home Appliances

BRASS FORGING PARTS

DBFP - 01

DBFP - 03

DBFP - 02

DBFP - 04

DBFP - 06

DBFP - 07

DBFP - 05

DBFP - 08

We produce and supply high precision forging components conforming to buyers technical specification and ensure stringent quality standard.

BRASS FITTINGS PARTS

We produce and supply high precision Fittings components conforming to buyers technical specification and ensure stringent quality standard.

BRASS FITTINGS PARTS

DBFP - 09

DBFP - 10

DBFP - 11

DBFP - 12

DBFP - 13

DBFP - 14

We produce and supply high precision fittings components conforming to buyers technical specification and ensure stringent quality standard.

BRASS SANITARY PARTS

We produce and supply high precision forging components conforming to buyers technical specification and ensure stringent quality standard.

MACHINERY

To survive with the demands and compete the international market, DBI has the following machineries

- ✓ 7 Cam operated machines
- ✓ 2 Drilling Machines
- ✓ 5 Threading Machines
- ✓ 02 SPM for Drilling and Tapping
- ✓ 10 Manual Turning Machine
- ✓ 04 CNC Turning Machines of HAAS, USA
- ✓ Ultra Sonic Cleaning Machine
- ✓ Sliding Head Automatic Turning Machine XD32H of HANWHA, KOREA

Our **commitment to precision** manufacturing ensures brass components of the **highest caliber**, built to last.
